PROFILE

My extensive experience in designing user-friendly interfaces and my strong proficiency in modern frontend technologies set me apart as an ideal candidate for the frontend developer role.

SKILLS

- HTML/CSS(Advanced)
- JavaScript(Intermediate)
- React JS(Learning)
- JAVA(Upper Intermediate)
- Data Structure(Intermediate)
- Python(Upper Intermediate)
- SQL(Upper Intermediate)
- Soft Skills(Upper Intermediate)

EXPERIENCE

FULL STACK DEVELOPER

Take it smart (OPC) Private Limited

Aug 2023 - Oct 2023

My recent internship provided comprehensive full-stack development training, fostering proficiency in front-end and back-end technologies. A hands-on approach enabled dynamic, responsive web application creation. Notably, I successfully spearheaded a project, showcasing adept management of the software development lifecycle

LEADERSHIP TEAM

TCS iON

Jun 2023 - Jul 2023

During my TCS ION trainee program, I acquired vital soft skills essential for professional growth. With a focus on communication, teamwork, adaptability, and leadership, I honed my abilities to collaborate effectively, navigate diverse work environments, inspire teams, and communicate complex ideas with clarity. These skills have significantly enhanced my professional acumen.

PASHTO

DECLARATION

I hereby declare that all the information furnished above is true to the best of my knowledge.

PROJECTS

DELISH
I worked on HTML/CSS/JS/SQL

11/2022 - 12/2022

This website facilitates food ordering and securely stores orders and login details using SQL and PHP is used as backend.

BUILD SURE
I worked on HTML/CSS/JS/SQL

06/2023 - 07/2023

This website serves as a platform for procuring all the essential construction materials, including bricks, cement, and iron rods.

RESUME TEMPLATE
I created this using HTML/CSS/JS

08/2023 - 08/2023

This website is used to create the Resume Template.

MEMORY CARD GAME 🎮
I worked on HTML/CSS/JS

10/2023 - 10/2023

.In this captivating game, players are tasked with the challenge of memorizing and matching pairs of similar cards, putting their memory and concentration skills to the test.

GUESS THE NUMBER 🎮
I created this using JAVA

11/2023 - 11/2023

Users input guesses via a graphical dialog, aiming to match a randomly generated number. A great way to reinforce Java fundamentals, with clear feedback and a simple game loop.
